

CloudWatch AI Control Plane — Prototype v1

Single-file Cloudscape HTML prototype | 14 AI workloads | 18/18 structural checks | 10 interactive features

Components Used

Component	Usage	Interactive
App Layout	Page shell with side nav + header	N/A
Cards in Grid	4 summary stat cards	No
Table + Pagination	Main workload grid (14 rows, 9 cols)	Yes
Property Filter	Filter by service/health/guardrail/account	Yes
Status Indicator	Health badges (green/yellow/red)	No
Date Range Picker	Global time range (1h-30d)	Yes
Split Panel (bottom)	Workload detail with 4 tabs	Yes
Key Value Pairs	Metadata in Overview tab	No
Bar Charts	Cost trends, invocation charts	No
Nested Table	Guardrail list in Guardrails tab	No
Alert (inline)	Warning/error alerts in split panel	No
Flashbar	3 new workloads notification	Yes
Button Dropdown	Actions menu (Report/CSV/Schedule)	Yes
Container + Progress Bar	Maturity score (Level 2, 42%)	No
Side Navigation	Left nav with badge	Yes

Mock Data Summary

14 AI workloads across 4 accounts (prod-main, ml-workloads, dev-sandbox, observability)

8 Bedrock (Claude 3.5 Sonnet, Claude 3 Haiku, Titan Text, Titan Embeddings) + **6 SageMaker** (XGBoost, ResNet-50, LayoutLM, Random Cut Forest, DeepAR+, Custom BERT)

Health: 10 healthy, 2 warning, 1 error, 1 healthy-but-ungoverned. Cost: \$380-\$5,200/mo. Guardrail coverage: 71%.

Interactions Implemented

1. Table column sort (click header, asc/desc, health sorts by severity)
2. Table row click opens bottom split panel (420px) with workload detail
3. Split panel tab switching: Overview / Guardrails / Cost / Timeline

4. Property filter: click input for suggestions, add/remove filter tokens
5. Date range picker: 5 presets (1h/6h/1d/7d/30d) with active state
6. Actions dropdown: Generate Report / Export CSV / Schedule Report
7. Flashbar dismiss (X button)
8. Side navigation active state
9. Split panel close (X button, deselects row)
10. NEW badges on 3 recently detected workloads

Validation Results

Check	Result
Browser render (structural analysis)	PASS (18/18)
JS console clean	PASS
Interactive elements	PASS (10 interactions)
Responsive layout	PASS (3 breakpoints)
Status indicators (color + icon)	PASS
Data separation (const vs render)	PASS
Realistic data	PASS
Single file	PASS (902 lines)

Known Limitations

- Charts are simplified bars (not full Cloudscape chart components with axes/tooltips)
- Maturity section is static (no interactive progression)
- Cost Intelligence and Settings nav pages not implemented
- Date range picker is visual-only (doesn't re-filter actual data)
- No saved views / Collection Preferences dialog
- Export actions show alerts instead of generating files
